

Specifications

AUTOpercent[®]PAA 50

- Automatic PAA Chemical Feed System
- Maintains Accurate Pre-determined Chemical Concentration of 0-200 PPM
- NEMA 4X Fiberglass Enclosure
- Digital Programmable Controller with Automatic Temperature Compensation for Accurate Chemical Feed
- Adjustments for Varying Tank Sizes and Equilibration Times
- 2-Electrode Polarographic Membrane sensor for direct measurement of PAA
- 50-ounce/Minute Peristaltic Pump
- On/Off Key Switch
- Run Indicator Light
- Fail-safe Feature
- Data Logging Feature:
 - Holds 4MB (1.9 million measurements maximum).
 - Download type is USB 2.0 interface.
 - Logging rate of 1 second to 18 hours.
- Electrical: 3 AMP Maximum at 120VAC

Version:20303A
